Fast Growth 2015: The Top 25

by **CRN Staff** on September 14, 2015, 9:00 am EDT

Email this CRN article

1 2 3 4 5 6 7 8 9 10 ... next ›

Rising To The Top

The Fast Growth 150 is CRN's annual ranking of the fastest growing solution providers, resellers, technology integrators and IT consultants in North America.

Recognizing companies with gross sales of at least $1 million, the Fast Growth 150 ranks companies based on their two year growth-rate (2012 & 2014 annual gross revenue).

Here we present the top 25 from this year's Fast Growth 150.

[Related: A Quick Study: The 2015 Fast Growth 150]

Lunch & Learn Series

Based on the success of a pilot Lunch & Learn session in November 2015, the Flagler County Chamber of Commerce, along with SCORE and the Palm Coast Business Assistance Center, will launch a three-part Lunch & Learn series next month. Designed to provide small business owners and operators valuable information on subjects vital to the success of their businesses, the introductory series will provide participants insights into three basic management activities vital to operating a successful and sustainable business. The following sessions are planned:

Business Planning – April 20

This session will provide an overview of how developing and operationalizing an effective plan to ensure profitability. Many business leaders feel they don't have the time to create a business plan, which is critical and not doing so virtually assures less than optimal performance.

Finance & Profitability – May 18

Money is to business as oxygen is to humans. In many cases small businesses owners do not have a clear understanding of where their money goes. The failure of not knowing is one reason why businesses do not succeed. This session will explore this important connection and offer practical advice business owners can apply.

Customer Service Essentials – June 15

Customer service is what makes the small business world go around. Happy customers are part of the best marketing plan, and word of mouth marketing is priceless. Learn how to delight customers during this session.

How do I become relevant?

Server Virtualization Services and Consulting

Thomaston, CT

Server Virtualization Experts
We have extensive experience in server virtualization projects and proudly serve the Thomaston, CT market. We configure, support and maintain virtual servers for organizations of all sizes. Whether you already have an existing virtualized setup or are looking to convert to one, we can help make your server virtualization project a success.

Small Business or Large Enterprise
It doesn't matter if your organization is large or small. Virtualizing your IT is a smart move and will save you money in the long run. It will also give you more flexibility in supporting your IT infrastructure. Even if you only have one server, virtualization can be very advantageous.

Become Hardware Vendor Independent
No longer feel tied to a specific hardware vendor. With server virtualization technologies you can mix and match differing hardware with ease. You no longer have to upgrade when your vendor tells you to. You can get a much longer life out of your hardware, reducing your acquisition costs.

Free Consultation and Demonstration
Contact us today for a free consultation to see how converting to a virtualized environment can save your organization money, decrease downtime and reduce your IT risk.

Server Virtualization Benefits

- Lower power costs by reducing physical servers
- Reduce the effects of hardware failure
- Faster server provisioning for projects
- Reduce hardware vendor lock-in
- Extend the life of legacy applications

Schedule Free Consultation

Please contact us today to schedule your free consultation to discuss this solution further.
